LEARN MORE ABOUT IT

What are bioadaptive botanicals?

Bioadaptive botanicals are plants that thrive in extreme climates thanks to their adaptive properties. These special properties help your skin adapt to its changing and unique environment so it can recover from—and gain resiliency to—environmental stressors.

NUTRICENTIALS® CELLTREX® ALWAYS RIGHT RECOVERY FLUID

Where does Nutricentials Celltrex Always Right Recovery Fluid fit in my skin care routine?

Nutricentials Celltrex Always Right Recovery Fluid is a treatment serum, so you should apply it after toning and before moisturizing in the morning and evening.

How does Nutricentials Celltrex Always Right Recovery Fluid help my skin recover?

Your skin takes a beating throughout the day, but the bioadaptive botanical extracts in Nutricentials Celltrex Always Right Recovery Fluid come from unique plants that can thrive in even the harshest conditions. These adaptive benefits help your skin rebound during the day and complement the skin's natural nighttime recovery process.

How does HydraFlex work?

The HydraFlex Blend adapts to your changing environment to give your skin the right hydration no matter where you are because it's amphiphilic, which means that it contains both water- and oil-loving components. The water-loving portion retains water on the skin, while the oil-loving part prevents evaporation. This allows the blend to auto-adapt to your changing environment, drawing in moisture and preventing evaporation as needed to allow your skin to have just the right amount of hydration.

Can I use Nutricentials Celltrex Always Right Recovery Fluid in the morning and at night?

Absolutely! By adding Nutricentials Celltrex Always Right Recovery Fluid to both your morning and evening routines, you'll maximize the amazing benefits to your skin.
